

IMMEDIATE RELEASE 03rd March 2010

ebis appoints International Business Development Manager

ebis Risk Services, the specialist in corporate intelligence and digital forensics, today announced the appointment of Harry Seebus as International Business Development Manager, effective immediately.

Harry joins ebis having recently developed his own business as an independent consultant specialising in counter-fraud, verification and brand protection solutions. Prior to this, Harry was International Sales Director for Keesing Reference Systems, a specialist provider of verification tools and identity authentication systems.

Catherine Bunton, Managing Director of ebis Risk Services, commented: "We are delighted to welcome Harry as a member of our team. Harry's wealth of experience in the counter-fraud and risk prevention arenas will be of great benefit in developing business in our core markets."

Harry Seebus commented: "It is a pleasure and a privilege to be working for ebis, which has proven to be such an effective partner in preventing and investigating risk. ebis has a proven track record of listening and understanding its clients' needs and delivering first-class service. I am proud to be joining the team".

Harry, who will be based in the Netherlands, is ideally located to develop relationships with major institutions in Europe and beyond. Harry's appointment is part of ebis's larger expansion into international markets and their overall strategy to secure a major international market share in their specialist areas of risk prevention, detection and investigations.
